

You could say
SafeNet protects the world.
And you wouldn't be far off.

TOP 10 FANTASTIC FACTS

SafeNet is one of the largest information security companies in the world, delivering comprehensive data protection solutions for the persistent protection of high-value information.

At SafeNet, **our people, our technologies, and our philosophy** are strategically built around protecting our customers' most critical data assets in any environment, **with a data-centric approach that ensures our customers' most valuable assets remain secure wherever they go.**

For over 25 years, we have been trusted to protect the world's most sensitive data for the world's most valuable brands. **We are The Data Protection Company.**

- 1** We protect the most money that moves—more than 80% of the world's intra-bank fund transfers and nearly \$1 trillion per day.
- 2** We are the first to secure access to the cloud—with the industry's only centrally managed identity federation solution for SaaS applications.
- 3** We protect the most classified information—with products found in every vehicle, aircraft, and ship in the U.S. military.
- 4** We are market leaders in safeguarding PKI—#1 in market share for USB smartcard tokens and award-winning hardware security modules.
- 5** We have award-winning security solutions for financial services—including the industry's first secure, web-based PIN issuance and management solution.
- 6** We protect the most high value software—more than 100 million license keys protecting the most software licenses in the industry.
- 7** We employ the most crypto experts in the industry—550 encryption engineers developing cutting-edge technologies and patents.
- 8** We have the most certifications—more FIPS 140-2 and FIPS 140-1 certifications than any company in the industry.
- 9** We are the first to monetize the cloud—providing the industry's first and only software licensing and entitlement management solution for ISVs, delivered from the cloud for the cloud.
- 10** We are trusted around the world—by more than 25,000 customers across 100 countries.
